## Sticky Knowledge

- **Work** is everything we do to get by and it can be **paid** or **unpaid**.
- **Paid jobs** are called employment. People have skills and when applying for a job, they present them on a **job application**.
- Our local area has a wide range of employment and work including jobs in healthcare, finance, retail, education and recreation.
- We can compare our local area with a small area in a non-European country (e.g. a rural area in Bangladesh) and the work that is available there.
- There are similarities and differences between employment and work here and in a non-European country.
- We can compare human and physical features in order to make connections between the types of jobs offered in our locality and a contrasting locality.

## Exciting Books

## London is an urban area:

### Canary Wharf

### West End

## When describing the location of a place:
