

Parent Workshop: Introduction to Century Homework

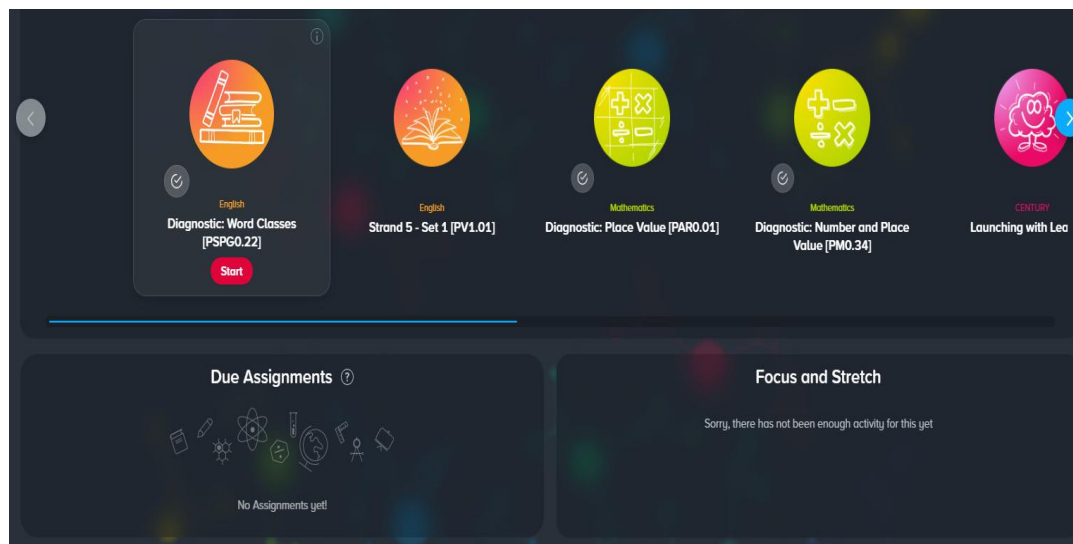

Wednesday 23rd September 2026

Our new homework platform.

This year, we are introducing CENTURY homework platform to support regular, purposeful home learning at home.

A simple way for pupils to practise, revisit and build confidence at home.

What is CENTURY?

An online learning platform designed to personalise practice for each pupil.

Bite-sized learning

Children complete short “nuggets” containing learning videos or slides followed by questions.

Personalised support

CENTURY uses pupils' responses to identify gaps, address misconceptions and recommend suitable next steps.

Teacher oversight

Teachers can set assignments and use the dashboard to see completion, performance and areas that may need support.

We will use CENTURY as part of our homework provision to reinforce learning from school and support independent revision.

Why are we introducing it?

Reinforce classroom learning

Regular practice helps pupils revisit key knowledge and skills.

Personalise practice

Activities can respond to individual strengths and areas for development.

Builds independence

Pupils develop routines for homework, revision and taking responsibility for their learning.

Help us respond

Teacher dashboards provide useful information about engagement and misconceptions.

High CENTURY users are nearly **1.5 times** more likely to meet the **expected standard** in maths, reading and GPS assessments than low users, and **3 times** more likely to achieve at a **higher standard** in those subjects than low users.

MATHS

4 in 5 

regular CENTURY users achieved the **expected standard** in maths.

3 times

High users of CENTURY are more than **3 times** more likely to achieve at a **higher standard** in maths compared to low users.

READING

Over 70%

of regular and high CENTURY users achieved the **expected standard** in reading.

1.6 times

Regular CENTURY users are over **1.6 times** more likely to achieve at a **higher standard** in reading assessments than low users.

GPS

3/4 

of regular users on CENTURY achieved at least the **expected standard** in GPS.

2 times

High users of CENTURY are more than **2 times** as likely to achieve at a **higher standard** in GPS, compared to low users.

Discovery Multi-Academy Trust in England (2023-2024)

"The correlation between regular CENTURY usage and higher SATs scores is evident, and we are proud of the progress our pupils have made." Candi Norman, Headteacher at Woollen Hill Primary School, part of the Discovery Multi-Academy Trust

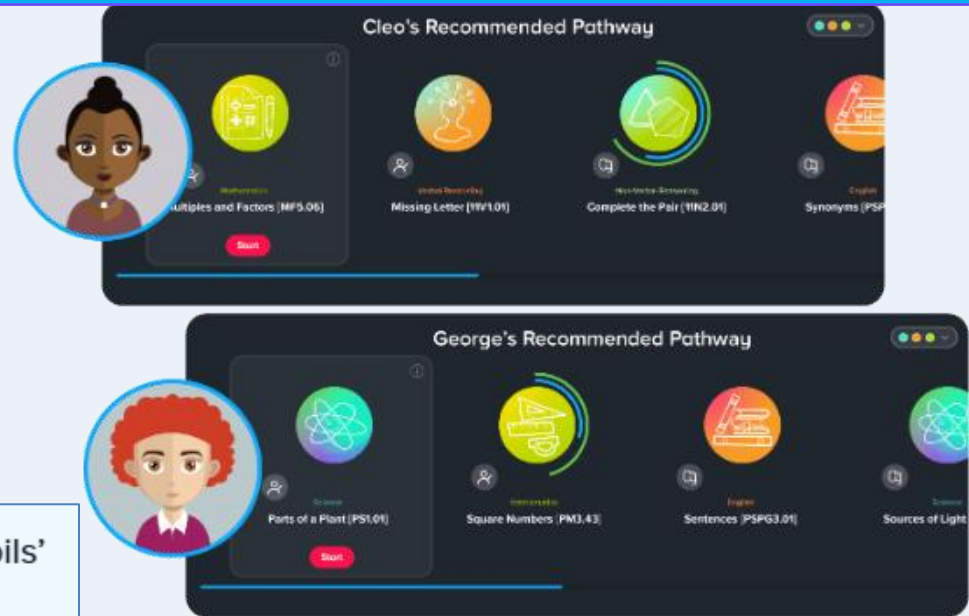

Accelerated learning

Personalisation

Resources

Engagement

- ✓ CENTURY instantly identifies and plugs pupils' gaps in knowledge
- ✓ It pinpoints and addresses misconceptions before they become learning roadblocks
- ✓ Each pupil gets a constantly adapting pathway with learning content tailored to their needs

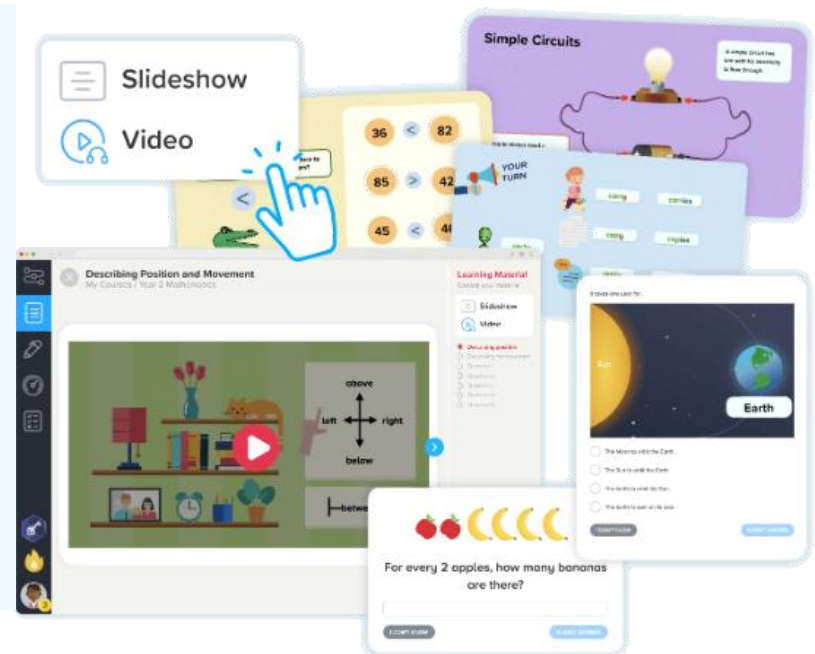

Accelerated learning

Personalisation

Resources

Engagement

- ✓ Learning resources on CENTURY are broken into micro-lessons, called nuggets, that contain videos, slideshows and self-marking questions
- ✓ All materials are created in-house by a team of experienced teachers
- ✓ CENTURY's learning resources are aligned to the national curriculum and schemes of work like White Rose Maths

Accelerated learning

Personalisation

Resources

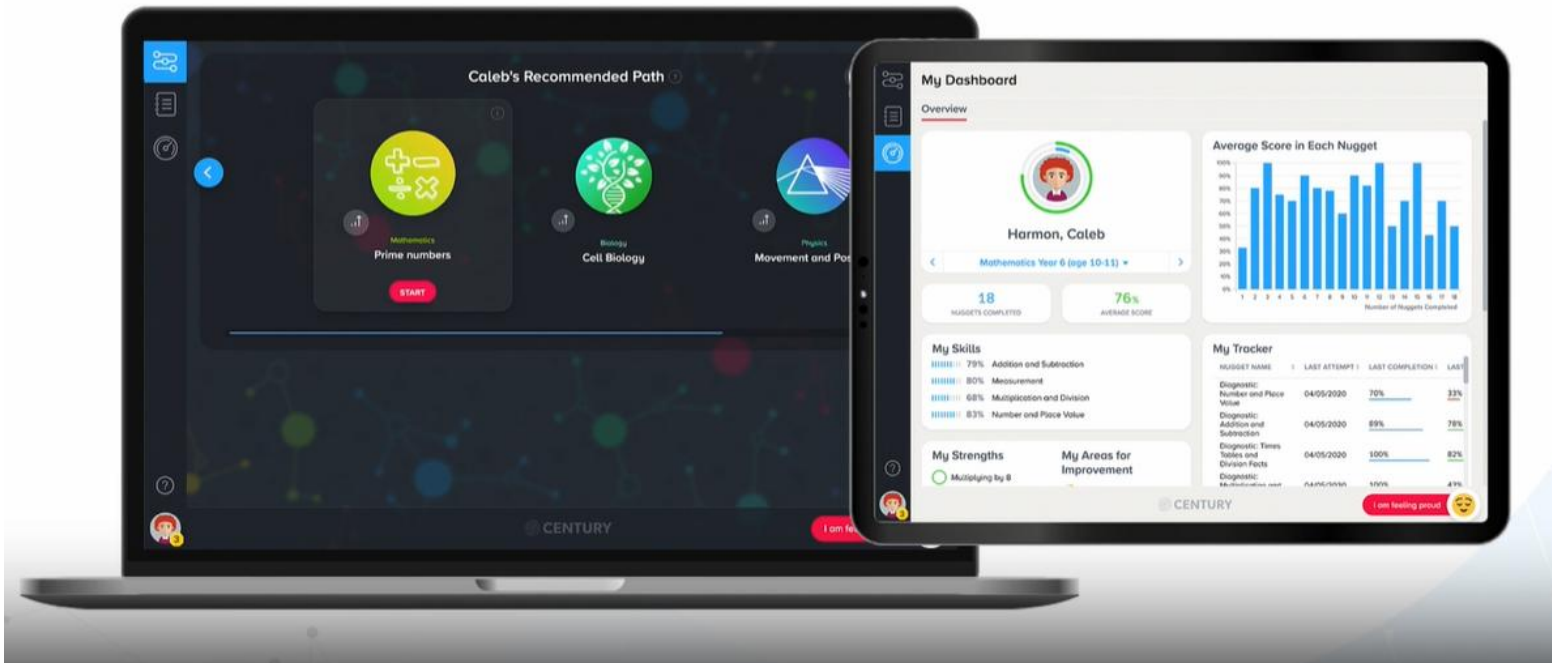

Engagement

- ✓ As they learn, pupils receive tailored feedback to help them improve
- ✓ They can see their progress on an interactive dashboard, which can also be shared with their parents and guardians
- ✓ Pupils earn badges and streaks to support motivation

A mockup of an interactive learning dashboard. At the top, there are three hexagonal icons: a purple one with a green arrow, a grey one with a lock, and another grey one with a lock. Below these, a quiz question asks "What is 4 in Roman numerals?". There are four radio button options: ☐ 1V, ☒ III, ☐ III, and ☐ IV. Below the options, a grey box says "Incorrect. One of the rules of using Roman numerals is that you can't have the same numeral three times in a row." and a small blue button says "Correct Answer". To the right of the question, a blue box shows a circular arrow icon, the number "16", and the text "nuggets attempted". Below that, a clock icon shows "2hr 41m" and "time spent studying". Further down, a question mark icon shows "142" and "questions answered". To the right of this, a yellow flame icon is above a dark grey box that says "LONGEST STREAK 1 week" with a trophy icon. Below the streak box is a circular profile picture of a young man with a yellow badge with the number "3" next to it. A blue button labeled "NEXT QUESTION" is at the bottom right of the quiz area. At the bottom right of the entire dashboard area is a colorful illustration of three fish (red, blue, and green) swimming in blue waves.

Your child's personalised pathway

The screenshot displays the CENTURY platform interface. At the top, a green box labeled "Your child's personalised pathway" has a red arrow pointing to the "Aydin's Recommended Path" section. This section contains a sequence of six activity cards: "Addition Mental Methods 2 [PAR2.02]", "Addition Written Methods 1 [PAR2.03]", "Addition Written Methods 2 [PAR2.04]", "Addition Written Methods with Decimals 1 [PAR2.05]", "Addition Written Methods with Decimals 2 [PAR2.06]", and "Diagnostic: Word Classe: [PSPG0.22]". Below this, the "Due Assignments" section is visible, containing a table of assignments. A red arrow points from a green box at the bottom left to this section. Another red arrow points from a green box at the bottom right to the "Focus and Stretch" section, which currently displays the message "Sorry, there has not been enough activity for this yet". At the bottom right, there is a mood indicator showing "I am feeling neutral" with a sad face icon.

Subject	Material	Due
Multiplication Tables	Nugget	Thu, 10 Sept
Times tables		
⚠ Overdue Complete by Thu, 17 Sept, 22:00		
Mathematics	Nugget	Tue, 22 Sept
Tasman Class Homework 15.9.26		

This the homework set by the teacher

Focus Nuggets are activities chosen to help your child practise and strengthen areas where they need more support.

Stretch Nuggets are activities designed to challenge your child and extend their learning when they are ready to move on.

What will homework look like?

Clear tasks, manageable chunks and regular practice.

1

Log in

Pupils access CENTURY using their school account/login details.

2

Check assignments

Teacher-set homework will appear in the assignments area.

3

Complete the nuggets

Watch/read the learning material, then answer the questions independently.

4

Use feedback

Pupils receive immediate feedback and can see how they are progressing.

Homework

The following homework is set each week:

- **Mathematics on Century:** will be work to consolidate and practise what they have learned in class.
- **English on Century:** will be work to consolidate and practise what they have learned in class.
- **Reading:** every day and reading record to be signed every day by an adult.
- **Spellings:** up to 10 words each week and tested the following week.
- **Times Table Rockstars** – Practise TTRS daily for a minimum of 10 minutes.

In addition to set homework, children will complete **nuggets from their own personalised pathway.**

This means that **each child's pathway may look different.**

Your CENTURY Guardian Account

A separate account for parents and carers to monitor and support learning at home

Your account is called a
Guardian Account

Your child will continue to use their
own separate CENTURY learner
account.

What will you be able to see?

- ✓ **Learning activity** Time spent learning, active days and completed nuggets
- ✓ **Recent work** Scores, dates completed and time spent on each nugget
- ✓ **Course progress** How much has been completed, time spent and average score
- ✓ **Focus On** Personalised recommendations to help address gaps in learning
- ✓ **Assignments** Information about work that has been assigned to your child

The dashboard gives you a simple overview of your child's engagement and progress on CENTURY.
